## # Summary

Aspiring Full Stack Developer with a solid foundation in web development, gaining proficiency in multiple programming languages, frameworks, and database management. Capable of contributing to projects both independently and as part of a team, with a strong focus on delivering quality work. Eager to learn and grow within the industry.

## # Skills

- **Programming languages:** Java, Javascript, TypeScript, C.
- **Back-end frameworks:** Spring, Spring Boot, Spring Data JPA , Hibernate, Microservices,.
- **Front-end frameworks:** ReactJS, NextJS, Bootstrap, Tailwind.
- **Database:** MySQL, Firebase
- **Management:** Git, GitHub, Docker, Kubernetes, Bash.

## # Projects/Experience

- **Web Developer at Hamlet Dubai** (July 2024): Designed and built a dynamic multi-page website focusing on delivering a user-friendly and visually appealing experience. Utilized React to create a responsive, interactive interface and Tailwind CSS for modern, efficient styling.
- **Technologies used:** HTML, CSS, Javascript, TypeScript, ReactJS, Tailwind, Git.

## # Personal Projects

- **SSM MemeGenerator** (June 2024): Developed a modern meme generator with random image switch support, featuring text dragging and 100 random images.
- **Technologies used:** Html/CSS, ReactJS, AxiosJS, and a random image API.
- **Developed a Full-Stack Notes Website** (June 2024): Designed and developed a full-stack notes website. Utilized React for a dynamic, responsive frontend and Tailwind CSS for modern styling. Integrated Appwrite for backend functionality, including authentication and data management.
- **Technologies used:** Html/CSS, ReactJS, AppWrite API and Tailwind.
- **Interactive Tic-Tac-Toe Game** (May 2024): Built a Tic-Tac-Toe game with a clean and interactive user interface. Designed the game using HTML and CSS for layout and styling, and implemented game logic and functionality with JavaScript.
- **Technologies used:** Html/CSS and Vanilla JavaScript.
- **A full stack movie review website** (August 2024): Developed a comprehensive movie review website featuring a clean and modern user interface. The front-end was built with React and styled using Tailwind CSS for a responsive and visually appealing design. The back-end was implemented with Spring Boot and Spring Data JPA to handle database interactions and provide robust functionality for managing movie reviews and ratings.
- **Technologies used:** React, Tailwind CSS, Spring Boot, Spring Data JPA , Spring Mvc.

## **# Education**

- **Bachelor of Engineering in Electronics and Communication Engineering from National Institute Of Technology (NIT), Srinagar (Aug 2022 - Currently)**
